

## Ditch The Bowl

Why do we want to ditch the bowl?

- Dogs are naturally reinforced by food, we want to use that precious resource to reinforce behaviours we want to create!
- You can create enrichment opportunities for your dog by feeding them creatively like food toys, puzzles, brain games and all types of training and learning!
- Food is easy to use and helps dogs learn quickly and with enthusiasm!
- We want to encourage your dog that we provide the good things in life, and that it's not all about the almighty food bowl, but instead about the people!
- It is better for your dog's digestion to eat slower!
